

Postdoc Career Fair

August 23-25, 2016
Los Alamos, NM

Dear Employers:

The Postdoc Program Office at Los Alamos National Laboratory (LANL) will be hosting its annual Postdoctoral Career Fair in August 2016. This event attracts institutions from across the country, providing them the opportunity to develop collaborations and recruit from the Laboratory's talented postdoc and student population. We wish to extend a formal invitation to your institution to participate in this year's event.

Los Alamos National Laboratory, a United States Department of Energy (DOE) contractor, conducts multi-disciplinary research for national security, space science, medicine, renewable energy, materials technology, super-computing, and many other fields. LANL has a long-standing tradition of partnering with universities, industries, and other national laboratories involved in both basic and applied research developing new paradigms and pushing new frontiers.

Registration information is available through the event's main web site:
<http://www.lanl.gov/careers/career-options/postdoctoral-research/postdoc-career-fair.php>

If you have questions, please address them to postdocprogram@lanl.gov

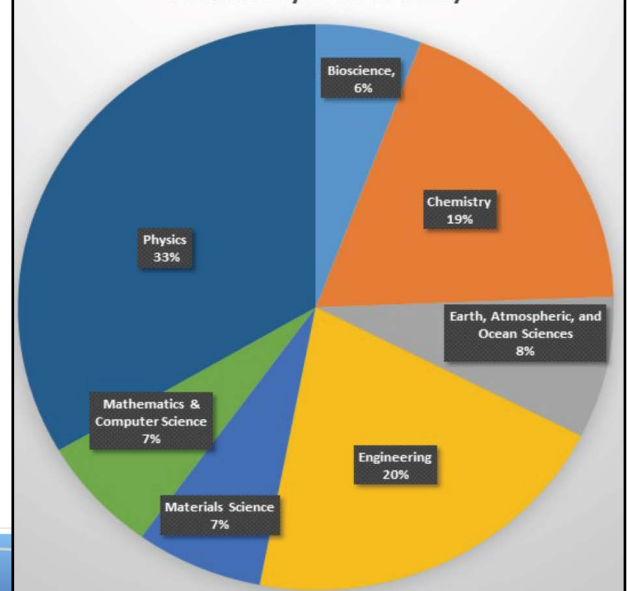

The Los Alamos Postdoc Career Fair is an excellent opportunity to hire top talent.....

- A candidate pool of over 300 PhDs and 400 GRAs from top U.S. and international universities.
- Postdocs bring 2+ years of work experience.
- Employers have the opportunity to target their interaction with potential hires that are aligned with
- LANL postdocs have extensive basic science and applied research ability and broad technical expertise.
- Participating companies have the opportunity to prescreen candidates' CVs, allowing for planning and scheduling of interviews.

Employer Comments from Previous LANL Postdoc Career Fairs:

- "Made valuable connections for future openings as well as current."
- "Great event – we will be back next year."
- "The students and postdocs (candidates) were very interested and excited. The organization (of the event) was great, as was communication."
- "Good volume of postdocs."
- "Thanks, very well done."
- "Excellent organization and assistance."

Postdocs by Field of Study
